

NPC Product and Cyber-Protection Insurance

NPC's primary mission is to protect you, our Client. And by extension your clients and stakeholders. It's the reason we are in business. NPC's innovative, disruptive approach to protecting your business requires an equally innovative and disruptive commitment to you.

NPC DataGuard Pro™

1-855-667-2642 | npcdataguard.com

Our product and cyber-protection insurance is underwritten by the worldwide leader in comprehensive cyber risk insurance for technology companies, Chubb. Using our NPC DataGuard Pro product ensures you, your clients, and all the stakeholders that you communicate with, support, collaborate, and serve, are supported by a multimillion dollar insurance package.

Up to \$5,000,000 for:

- + Privacy Breach Remediation costs including:
 - + Privacy Notification
 - + Forensics
 - + Remediation and Crisis Management
 - + Investigation and Defense of Regulatory Actions
- + Cyber extortion including credible threats as a result of an NPC DataGuard Pro failing to protect you:
 - + Threat to release confidential information
 - + Threat to destroy stolen or surreptitiously encrypted data assets
 - + Threat to introduce malicious code back into your systems
 - + Threat to restrict access to your systems or networks
- + Ransom payments
- + Financial injury due to failure of our product or service, including fines and penalties, impairment of other computer services including electronic data recovery cost, business income loss, and extra expense caused by or resulting from an act of malicious programming
- + Damages and costs associated with destructive programming from the use of your NPC DataGuard Pro system
- + Disclosure or loss of confidential information, intellectual property loss or infringement
- + Reputational disparagement

Our insurance is consistent with and meets the requirements of provincial, state, and federal notification and data protection laws.

Our NPC DataGuard Pro Clients in Canada, the United States, and around the world are covered.

From Business Email Compromise (BEC) scams to ransomware attacks to lost or stolen devices, NPC protects you, your business, and your clients from cyber-attack and data loss with an industry-leading promise of security.
